

DROP

Hub and Remote

The Connection to Everything

Summary

The DROP Hub is a state-of-the-art smart hub that is the heart and brains of the DROP Connect smart water management system. The DROP Remote extends the range of the DROP Link mesh network providing extended coverage, if needed.

Features

- Integrates all of the products in the DROP Water Management System
- Show systems water state
- Extends your mesh network
- Convenient control of water shut off with the touch of a button
- 9V Battery Backup for Power Loss
- DROP App to Control System from Anywhere
- Water Usage Data and History
- Provides text messages, emails and/or push notifications for low salt and other system information to your smartphone.
- 1 Year Warranty

The DROP Hub and Remote integrates with all your residential water management devices, including water softeners, pumps, filters, flow meters, water conservation devices and more. The DROP Remote extends the range of your DROP Link mesh, as well as gives you the convenience of turning your water off with a touch of a button.

DROP Leak Detectors

Place DROP Leak Detectors under sinks and dishwashers, behind toilets or washing machines, near your water heater, or anywhere that water might leak or collect. If a leak or freezing temperature is detected, the Leak Detector will have the DROP Hub turn off your water.
